

Richard Dolan Coming to ACE 2018

Richard Dolan confirmed this week that he will speaking at the Alien Cosmic Expo (<https://aliencosmicexpo.com/>) this coming June. “I’m very happy to be returning to Toronto, one of my favourite cities”, said Dolan by phone. The researcher and author has just finished his second volume of the Richard Dolan Lecture Series (<https://www.richarddolanpress.com/>) where he explains his view on the UFO cover-up and the possible disclosure that could transpire during the Presidency of Donald Trump.

“Canadian’s need to be vigilant in obtaining as much credible, and I stress credible research and UFO data, and then hold your government and it’s officials accountable to find out whats happening and what they know,” explains Dolan. In his False Flags TV series Richard reveals the ulterior motives of government covert operations that are used to achieve specific ends that would otherwise be impossible to justify.
